5* Teaching 5* Teacher

I searched many piano teachers and eventually came across Eve. Her mix of theory and practical teaching grounds the knowledge of what she has taught. Through her patience, I personally passed my first Theory exam with a Distinction and know with her skill i will continue in the future to achieve the same high standard. I would recommend Eve with no hesitation to everyone that wants to learn and being in her presence you'll soon become as passionate about music as she clearly is!!

I had the privilege of listening to Eve Bishop teaching a student to play piano. I was very impressed with the quality of her approach and her patience. She is clearly a very competent teacher as well as a very accomplished pianist. **Ross Ablott MSc**

Piano teacher review

Eve is a fantastic teacher extremely patient and calm. She is able to gear the lesson to my daughters level .I'm astonished and amazed at my daughters achievement so far, in just a few months my 7 year old is able to read music! Thank you Eve keep up the good work.

Excellent Teacher

Eve is an extremely patient and helpful Teacher - especially for the more 'mature' students. Would highly recommend her for all ages wanting to learn and enjoy the piano.
