Kind, friendly, focused Eve is fantastic with my 6 year old daughter, she is great at guiding her through her tuition in a way that is relaxed but supportive. I find Eve approachable and warm, I would have no reservations in recommending Eve.

Fabulous Piano Tutor I've wanted to learn to play the piano for years. Since having children my brain function seems to be less than it was before and Eve has been wonderfully patient and willing to go at a slow pace. She clearly explains all I need to know, encourages and praises me. I would highly recommend her 😊

Encouraging and inspirational teacher Eve has been teaching my 14 year old son for about a year and a half. He was keen to find a teacher who would support him learning popular music for fun rather than pursue grades/exams. He always enjoys going to his lessons and has learnt a wide variety of pieces which he enjoys playing at home and as part of his GCSE music lessons. Eve is a very encouraging, inspirational and fun teacher.view less

5* Teaching 5* Teacher I searched many piano teachers and eventually came across Eve. Her mix of theory and practical teaching grounds the knowledge of what she has taught. Through her patience, I personally passed my first Theory exam with a Distinction and know with her skill i will continue in the future to achieve the same high standard. I would recommend Eve with no hesitation to everyone that wants to learn and being in her presence you'll soon become as passionate about music as she clearly is!!

Piano Teacher Review - Eve is a fantastic teacher extremely patient and calm. She is able to gear the lesson to my daughters level. I'm astonished and amazed at my daughters achievement so far, in just a few months my 7 year old is able to read music! Thank you Eve keep up the good work

Excellent Teacher Eve is an extremely patient and helpful Teacher - especially for the more 'mature' students. Would highly recommend her for all ages wanting to learn and enjoy the piano.
